OBJECTIVE

Innovative Full Stack Developer with **5 years** of experience building scalable, secure, and high-performing web applications across fintech, healthtech, and edtech domains.

Frontend Enthusiast, skilled in HTML5, CSS3, JavaScript, TypeScript, Angular JS & Angular, Adonis JS, React JS, Vue JS, bringing design ideas to life with clean, responsive, and intuitive interfaces.

Backend Strategist, skilled in Node.js, Django, Spring Boot, ROR and Database management in creating RESTful APIs, integrating third-party services, and working with databases like MySQL, MongoDB, PostgreSQL and PHP MyAdmin.

Tech Explorer, quick to adopt new technologies like Angular, Adonis JS and blockchain, with a focus on writing efficient, reusable, and testable code.

Collaborative Team Player, known for effective communication, agile development, and driving projects from concept to production.

Goal-Oriented Professional, committed to continuous learning and delivering user-centric solutions that make a real impact.

PROFESSIONAL EXPERIENCE

Product Engineer

Oct 2025 – Present

DigitalXC AI Technologies Private Ltd Chennai.

Key Achievements:

- Designed and implemented **automation solutions** using **PowerShell, Python, and Node scripts**, reducing manual operations and improving deployment efficiency across environments.
- Integrated **AI-powered assistants (ChatGPT/LLM solutions)** into internal and client platforms to automate workflows, enhance support systems, and enable intelligent response handling.
- Built and maintained **CI/CD pipelines, SonarQube and test automation frameworks**, increasing release reliability, improving test coverage, and reducing production defects.
- Strengthened **application security** by performing API hardening, authentication mechanisms (JWT/OAuth), vulnerability fixes, and collaborating with VAPT teams for secure deployments.

Senior Full Stack Developer

March 2024 – Oct 2025

Finmet Software Technologies Private Limited Coimbatore.

Key Achievements:

- Developed and deployed four major projects — **PMLA**, **E-Gold**, **IoT Tracker**, and **BT Dashboard** — on AWS EC2, focusing on performance, scalability, and security.
- Integrated **AI ChatGPT** into the Screenmate platform for assistant creation, messaging, and dynamic response handling for clients.
- Collaborated with **QSEAP** (a **VAPT** testing firm) for **API security** assessments, vulnerability fixes, and end-to-end testing enhancements.
- Learned and implemented **AdonisJS** framework features including CORS handling, web authentication, migrations, and RESTful APIs.
- Wrote and maintained automation test cases for backend functionalities, boosting test coverage and overall product quality.

Web Applications:

<https://screenmate.finmettech.com>

<https://finmettechnologies.com>

Full Stack Web Developer

May 2023 – March 2024

India Health Link Private Limited Chennai.

Key Achievements:

- Spearheaded the development and integration of a comprehensive medical coding system into the organization's **healthcare application (hPod)**, enhancing the user experience and enabling efficient management of vital test results.
- Collaborated with a cross-functional team to implement and optimize medical-based codes such as Blood Pressure (BP), Bone Mineral Content (BMC), Electrocardiogram (ECG), and other vital tests within the application.
- Led the integration of the **Ayushman Bharat Health Account (ABHA)** project, incorporating advanced analytics and data visualization tools to provide users with insightful interpretations of their health metrics.
- Conducted thorough testing and debugging processes, ensuring the accuracy and reliability of the medical coding and **ABHA** project implementations using Angular 16, JavaScript, HTML5, CSS3, RESTful APIs, ABHA analytics tools, Medical coding standards (BP, BMC, ECG and other vitals tests).

Junior Web Developer

Feb 2022 – May 2023

Farazon Software Technologies Private Ltd Coimbatore.

Key Achievements:

- Developing, Designing and Integrating Angular Based applications. Developed Responsive website based on client requirements.
- Developing Website application using **Angular, HTML, CSS, JavaScript, Typescript, and Restful Web Services.**
- Implemented **Push Notification** Concept, **Bulk Email** Concept and **Email Triggering**. Created RESTful web services for GET, POST, PUT and DELETE requests.
- Developed clean code, drive technical design, developed an efficiency, quality data, scope, operability and flexibility of applications.
- Experienced server and desktop user of Linux environments including Ubuntu, Arch, and their derivatives.
- Involved in all phases of Software Development Life Cycle (SDLC) like gathering the requirements, analysis, design, development, unit testing and deployment of the project.

Web Applications:

<https://farazon.com/>
<https://www.peepalprodigy.in/>
<https://rabbitcrm.com/>

Mobile Applications (API service):

- **Faraday One App** - Management and Employee connection app includes notifications.
- **Farazon Todo App** - Task Reminder app included email and push notifications.

Intern Web Developer

April 2021 – July 2021

Shia#sh Info Solution Private Limited, Chennai

Key Achievements:

- Developed responsive user interfaces using HTML, JSP, and Java Servlets, contributing to the implementation of web-based application features.
- Collaborated on Java-based web application development while gaining hands-on experience with the **Servlet-JSP architecture**, request handling, and front-end integration.

TECHNICAL SKILLS

Programming Languages:	JavaScript (ES6+), TypeScript, Java, Python, PHP, HTML5, CSS3, SQL.
Frontend Technologies:	Angular (v8+), Angular Material, React.js, Redux, Vue.js, Nuxt.js, Next.js, Bootstrap, Tailwind CSS, jQuery, Responsive Web Design.
Backend Technologies:	Node.js, Express.js, NestJS, Spring Boot, Java Servlets, JSP, RESTful APIs, REST API Integration.
Databases:	MongoDB, MySQL, PostgreSQL, Oracle Database, Firebase, Redis, Prisma ORM.
Cloud & DevOps:	AWS (EC2), Docker, Kubernetes, Nginx, Git, GitHub, Bitbucket, GitLab, CI/CD Pipelines, YAML, Linux (Ubuntu).
Authentication & Security:	JWT Authentication, OAuth 2.0, Role-Based Access Control (RBAC), API Security, VAPT Collaboration.
AI & Automation:	OpenAI API, ChatGPT Integration, LLM Integration, AI Workflow Automation, Prompt Engineering, Python Automation, PowerShell Scripting.

ACHIEVEMENTS

- First Rank in Programming Techniques among 135 students, awarded by Bharathidasan University (2013).
- Merit Certification in Python awarded by **Dr. D. Y. Patil Institute of Technology - Pimpri, Pune** (2020).
- **Panimalar Institute of Technology - Chennai** (2020)
 - Data Structures Certification – 92%
 - Database Management Systems (DBMS) Certification – 88%
 - Java Certification – 76%
 - C Programming Certification – 64%

EDUCATION

B.E - Computer Science and Engineering

2018 - 2022

Sri Ramakrishna Institute of Technology, Coimbatore. Graduated with **8.5 CGPA**

JOURNAL PUBLISHED

GENIUNE PRODUCT VERIFICATION SYSTEM USING BLOCKCHAIN TECHNOLOGY

A journal paper published in International Journal of Advance Research and Innovative Ideas in Education (**IJARIIIE**)
